Kart Attack

2012-2013

 **FEDERAL
MOGUL**

Introduction:

This catalogue details the Ferodo Kart Attack range of brake pads for karting applications. It has been designed for use by both distributors and racing teams and contains full application data, product shape illustrations as well as material compound data.

Part Number/Suffixes

All part numbers in the range section of this catalogue contain a suffix. This identifies the material compound available for that part number as follows:

KA/P = Organic Racing KS/ST = Sintered racing

Introduzione:

Il catalogo Ferodo Kart Attack è uno strumento di lavoro che permette alla rete di distribuzione Ferodo ed ai teams di scegliere correttamente la figura della pastiglia e la miscela per ottenere la miglior efficienza dell'impianto frenante utilizzato.

Significato dei suffissi:

Il suffisso nella parte finale del numero di codice viene utilizzato per identificare la miscela:

KA/P = Organic Racing KS/ST = Sintered racing

Introduction:

Ce catalogue détaille la gamme des plaquettes de frein Ferodo Kart Attack pour applications karting. Conçu pour une utilisation aisée à la fois des distributeurs et des Equipes de Course, ce catalogue contient une partie applications et une partie illustrations.

Références/Suffixes:

Tous les codes dans la section gamme de ce catalogue contiennent un suffixe. Ce suffixe indique la qualité disponible pour chacune des références. Les matériaux disponibles avec les suffixes appropriés sont les suivants:

KA/P = Organic Racing KS/ST = Sintered racing

Einführung:

In diesem Katalog ist das komplette Ferodo Bremsbelag-Programm für Kart Anwendungen aufgeführt. Der Katalog wurde für Händler und Renn-Teams konzipiert und enthält sämtliche Anwendungsdaten, Produktabbildungen und Materialdaten.

Teile-Nummern/Suffix:

Alle Teile-Nummern in diesem Katalog enthalten einen Zusatz. Durch diesen läßt sich das für diese Teile-Nr. verfügbare Material wie folgt identifizieren:

KA/P = Organic Racing KS/ST = Sintered racing

Introducción:

Este catálogo detalla la gama de pastillas de freno Ferodo Kart Attack, para aplicaciones en kart. Diseñado para facilitar su uso a Distribuidores y Equipos de Competición, el catálogo contiene los datos de aplicación/compuesto y la ilustración de las siluetas de las pastillas.

Referencia/Sufijos:

Todas las referencias en la parte gama de ésta catálogo, presentan un sufijo. Este sufijo identifica el material o compuesto disponible para cada referencia en concreto. Los compuestos disponibles y los sufijos respectivos, son los siguientes:

KA/P = Organic Racing KS/ST = Sintered racing

Characteristic \ Compound	Bite	Modulation	Release	Compatibility with Various Disc types	Pad Life
Sintered	✓		✓		✓
Organic		✓	✓	✓	

Compound Selection Guide:

Sintered Compounds (KS & ST): These sintered metal compounds demonstrate high bite and a high friction coefficient under all conditions, with excellent life.

Organic Compounds (KA & P): These organic compounds offer slightly reduced friction coefficient when compared to sintered metal compounds, but offer improved modulation for superior “feel.” They also offer better compatibility against a greater range of disc types.
