

MOTORCYCLE AND KARTING PRODUCTS

We supply for motorcycles and karting only the product from top quality suppliers for all type of applications, no matter if for daily usage machines or for top level motorsport. We specialise in brakes systems spare parts. You can choose among various materials of brake pads based upon the used technology and your driving style - no matter if organic based compounds, sintered pads or both for karting and motorcycle racing. Brake discs and hydraulic parts including brake fluids can be chosen in both OE level quality and top racing materials including those on the level of Moto GP. There are supplied also special oils and racing fuels for motorcycles and karting including ETS and Hiperflo brands.
